

# ICBFP 2016

International Conference on Biotechnology, Food Science, and Pharmaceutical Research  
University Kuala Lumpur Business School, Kuala Lumpur, Malaysia August 3-5, 2016

## Call for Abstracts/Full Papers

International Conference on Biotechnology, Food Science, and Pharmaceutical Research  
**3-5 August 2016, University Kuala Lumpur Business School, Kuala Lumpur, Malaysia**

**Submission Deadline: March 31, 2016**

**Website: <http://icbfp2016.globalconf.org/>**

All authors are encouraged to contribute to and help shape the conference through submissions of their research abstracts, papers and posters. High quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, or theoretical work in all areas of biotechnology, food science, and pharmaceutical research will be recommended to sponsored journals for special issues. All submissions to the conference will go through blind peer review by at least two independent reviewers. Interesting topics are listed below for your reference only, and not limited to the following topics:

### ➤ **Biotechnology:**

Agricultural Biotechnology, Biocatalysis, organocatalysis and nano-biotechnology, Bio-MEMS and micro-bioreactors, Breeding and genetics Cell and tissue engineering, Cellular and molecular biology, genomics & biotechnology, Environmental Biotechnology, Genomics and Proteomics, Gene regulation, Industrial Biotechnology, Marine & algal biotechnology, Microorganism technology, Nanoparticles, nanocomposites, and nanoporous materials for bio-applications, Role of ag-biotech innovation for national/international competitiveness, Current issues and challenges in Biotechnology.

### ➤ **Food Science**

Application of artificial intelligence in food science, Beverage and fermentation technology, Control and system engineering for food industry, Crop breeding, genetics & genomics, Electronics and instrumentation in food industry, Food and Nutritional Science, Food Chemistry and Biotechnology, Food fortification and supplementation, Food microstructure development and characterization, Food Packaging, Materials and Equipments, Food properties including thermal, chemical and mechanical properties, Food Sensory and Flavours, Mathematical modeling and software development for food science, Separation and purification processes for food production, Current issues and challenges in Food Science.

### ➤ **Pharmaceutical Research**

Application of artificial intelligence in pharmaceutical industry, Bioinformatics and Biotechnology of Pharmaceutical Interest, Biomedicine and Medical Pharmacology, Biopharmaceutics and drug disposition, Biomimetic and self-assembled materials, Cardiovascular pharmacology, Clinical Development, Computational Chemistry and Molecular Drug Design, Endocrine pharmacology, Gastrointestinal and urogenital pharmacology, Immune-pharmacology and inflammation, Molecular and cellular pharmacology, Pharmacognosy and Phytochemistry, Physiology and endocrinology, Current issues and challenges in Pharmaceutical Research.

### IMPORTANT DATE

<b>March 31, 2016</b>	Submission Deadline
<b>May 1, 2016</b>	Early Registration Deadline
<b>May 15, 2016</b>	Authors Registration Deadline
<b>June 15, 2016</b>	Final Version Deadline
<b>June 30, 2016</b>	Program Announced
